This meeting was called by the Documents committee to review the amended Bylaws, Declaration and Incorporation documents with the board and to decide if they are ready to be finalized. It was determined they are ready and David will reach out to the attorney to remove draft from the documents and send out.

After this the board discussed the two proposals that we received regarding tree trimming, and we decided to go with Steves Tree Trimming service and Denise will contact them to get this scheduled.

The meeting was adjourned.
